

Appendix H - Evidence Based Research Selection Criteria

Integrity	Respect	Performance	Responsibility	Innovation
------------------	----------------	--------------------	-----------------------	-------------------

1) Name of researcher / proposer
2) Title / topic of proposed research
3) Does it fit with the PCC's plan or current Policing priorities? YES / NO
Please explain further...
2) Will this piece of work and the expected time frames be useful to the Force? YES / NO
Please explain further...
3) Is it relevant to a current project? YES / NO
Please explain further...
4) Does it address or mitigate a current force or department risk? YES / NO
Please explain further...

5) Will this research be value for money? YES / NO

Please explain further...

6) Does it fit in with other research that is ongoing? Regionally or nationally? YES / NO

7) Can this research apply and be of benefit to operational policing? If so, how? YES / NO

Please explain further...

8) Where on the EMPAC Impact Typology do you believe this research fits? *(refer to next page)*

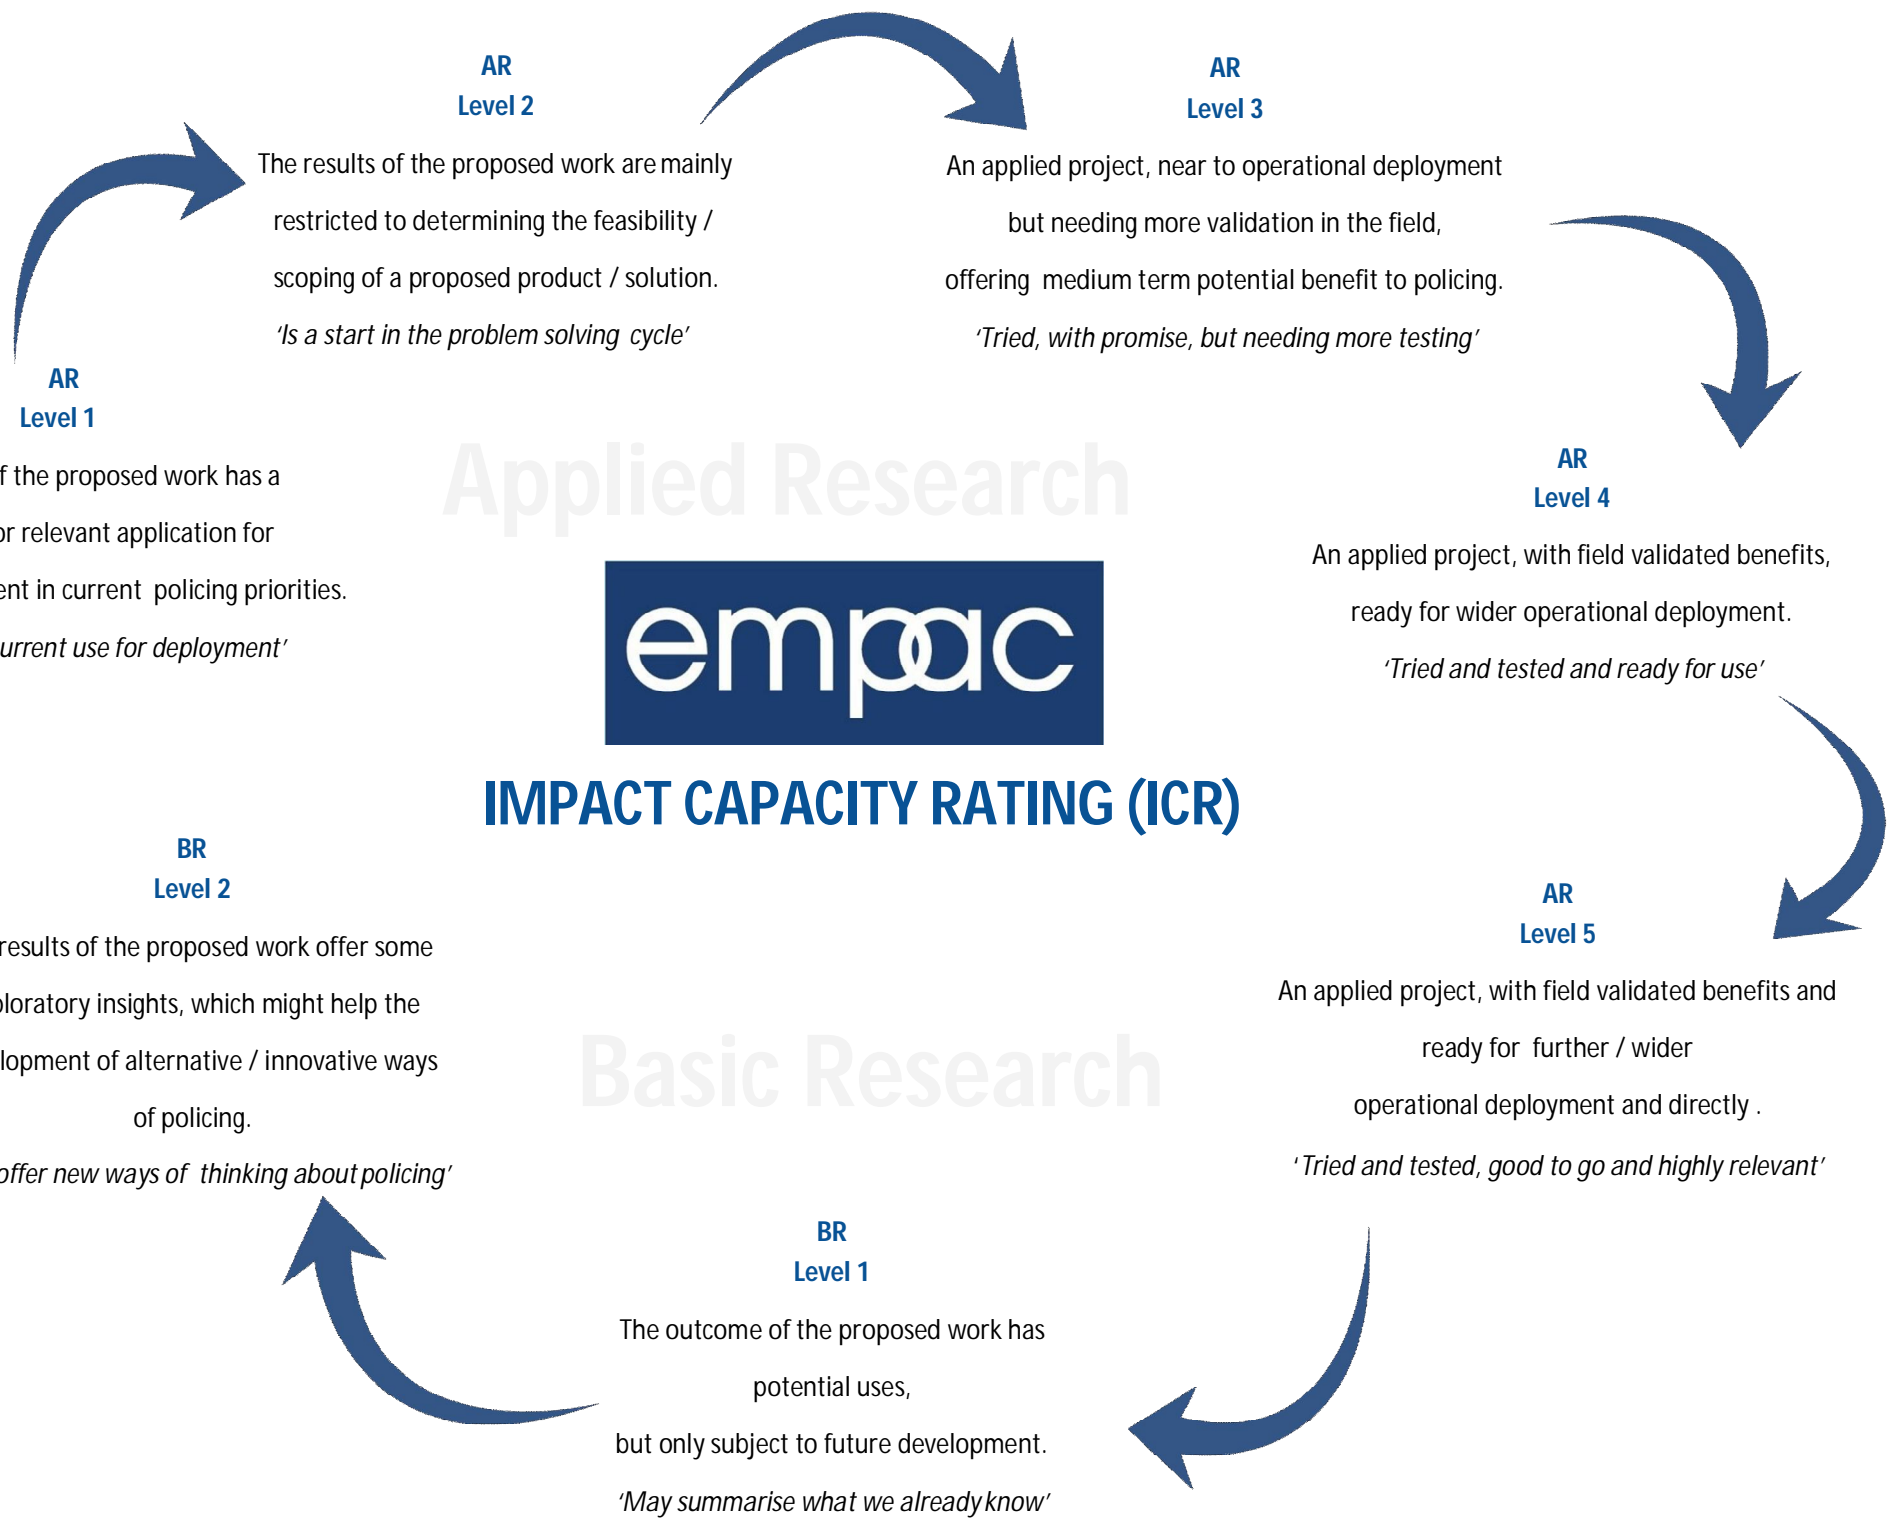

Please explain...

9) Any further comments?

Please explain...

10) Is proposal supported for EB Steering Group consideration? Yes / No

Please explain...

**AR
Level 2**

The results of the proposed work are mainly restricted to determining the feasibility / scoping of a proposed product / solution.
'Is a start in the problem solving cycle'

**AR
Level 3**

An applied project, near to operational deployment but needing more validation in the field, offering medium term potential benefit to policing.
'Tried, with promise, but needing more testing'

**AR
Level 4**

An applied project, with field validated benefits, ready for wider operational deployment.
'Tried and tested and ready for use'

**AR
Level 5**

An applied project, with field validated benefits and ready for further / wider operational deployment and directly.
'Tried and tested, good to go and highly relevant'

**AR
Level 1**

The outcome of the proposed work has a limited range or relevant application for operational deployment in current policing priorities.
'Has limited current use for deployment'

**BR
Level 2**

The results of the proposed work offer some exploratory insights, which might help the development of alternative / innovative ways of policing.
'May offer new ways of thinking about policing'

**BR
Level 1**

The outcome of the proposed work has potential uses, but only subject to future development.
'May summarise what we already know'
